## A Whole New Look for Lawn and Garden

Add a personal touch to your landscape with attractive stained-glass and serpentine jade embellishments. Serpentine jade, a material commonly used for jewelry and home décor items and valued for its architectural and decorative uses, brings an exotic look to the garden.

An elegantly appointed pathway catches the eye. 4x4 Garden post caps add texture and artistry to an outdoor environment. Solid serpentine jade caps have a cool, serene look. Earthy, subtle colors and Craftsman-like style grace each handcrafted Tiffany-style jade cap. Look to Tiffany-style stained glass caps for old-world charm. For settings that need a little something more, solar post caps glow with a soothing light. As an added benefit, garden post caps can be arranged to protect plants from drawn hoses.
