

DecksDirect Planning Guide

Follow these steps and sketch your layout on the next page to get your decking project started on the right track.

All you need: • pen or pencil • tape measure • phone/camera

EXAMPLE

Step 1

Sketch an outline of your house layout using the grid on the next page.

Step 2

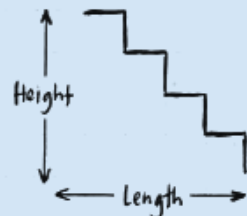

Sketch an outline of your deck.

Step 3

Write down dimensions of all sides of your deck. Be sure to highlight where you want your railing to be.

Step 4

Show where your stairs are located with measurements. Include total height and length of your stairs.

Take photos from multiple locations

Send us your photos

Email them to us at: deckplanning@decksdirect.com

Decking Layout
