BEFORE YOU BEGIN

Get Inspired

If you haven't already done so, it's time to dream a little. Use our [image galleries](#) to look at some ideas and projects from past customers. This is also a great time to consider your needs and what an ideal deck means to you.

Measure & Plan

It's important to take your time and gather accurate measurements of your project. This will form the foundation for all of your planning. Next, draw a layout of what you'd like your deck to look like. Include things like measurements, posts, and stairs.

STEP 1 - POSTS

Post Width - Westbury Tuscany offers posts in 2x2, 3x3, and 4x4 inch dimensions, allowing you to choose either a slim or a more substantial look for your deck.

Post Height - Posts heights are available for 36 inch and 42 inch rails. If you're installing on a staircase, use a taller post to allow the stair section to rack to the correct angle.

Post Kits - DecksDirect makes ordering a complete post simple with the [Westbury 3-piece kit](#) that bundles a post with a matching post cap and post skirt.

Post Fasteners - Surface-mounted posts will be fastened to the surface and subsurface of your deck with four structural screws (sold separately) through the welded base plate. See the Accessories section below for recommended fasteners.

Post Options *(click images to view product online)*

3 Piece Post Kit

Installation: Attaches to the top of the deck surface.

Included: Post, post cap and skirt.

Sizes: 2x2, 3x3, and 4x4.

Standard Post

Installation: Attaches to the top of the deck surface.

Included: Post only.

Sizes: 3x3 or 4x4.

Fascia Post with Bracket

Installation: Attaches to the outer vertical surface of the deck (fascia).

Included: Post and bracket.

Sizes: 2x2.

Crossover Post Kit

Installation: Attaches to the top of the deck surface and creates a continuous top-rail.

Included: Post, post skirt, crossover bracket and shims.

Sizes: 2x2.

Deco Post

Installation: Attaches to the top of the deck surface.

Included: Post only.

Sizes: 4x4.

STEP 2 - RAIL SECTIONS

Rail Lengths: Westbury Tuscany Level Rail Kits come in 5 ft, 6 ft, 7 ft and 8 ft lengths. Stair Rail kits are available in 6 ft and 8 ft lengths.

Included: In these kits, you'll receive an entire rail section: top rail, bottom rail, balusters, color-matching mounting brackets, hardware, and foot block(s).

Cutting Railing: Rails may be trimmed or divided as necessary but remember to order additional sets of mounting brackets as needed. *Pro Tip: When using one rail panel on for two sections, equal amounts must be trimmed from each side. To make sure baluster spacing is even, it's necessary to order 6 in to 12 in larger than the total opening size needed. For example, order a 7 ft section to accommodate (2) 3 ft sections.*

Extra Brackets: Westbury offers five different bracket types to allow for any deck design: Standard Wall mount, Fixed Stair mount, Angle mount, Stair Swivel mount and Stair Double Swivel mount.

Rail Options *(click images to view product online)*

Level Rail Kit

Included: (1) top rail, (1) bottom rail, balusters, (4) Standard Wall mount brackets, and hardware.

Length: 5 ft, 6 ft, 7 ft, and 8 ft .

STEP 3 - ACCESSORIES

Installation Accessories *(click images to view product online)*

Installation Tool

Helps with bracket placement, works with some Westbury posts.

Compatible Posts: 36 in 2x2 or 36 in 4x4 posts.

Bracket Mount Template

Helps with bracket placement, works with ALL Westbury posts.

Compatible Posts: 2x2, 3x3, and 4x4 posts.

Touch Up Spray Paint

Protects railing after cutting or from accidental damage.

Finishes: Black Fine Texture, White Fine Texture, and Bronze Fine Texture.

GRK 5/16 in RSS Rugged Structural Screw

Use to mount posts to the deck surface. We recommend the 4 in length to embed completely in wood blocking below the deck and post.

Length: 2-1/2 in, 3-1/8 in, 3-1/2 in, 4 in, 5-1/8 in, and 6 in.

Pack Size: 20, 100, and 400.

GRK Caliburn XL Concrete Screws

Use to mount posts to a concrete surface.

Length: 2-3/4 in, 3-1/2 in, and 5 in.

Pack Size: Varies by fastener length.

Finishing Touches *(click images to view product online)*

Adjustable Gate

Helps keep children and pets safe on the deck.

Opening Width: 48 in or 60 in - Cut to desired width.

Rail Height: 36 in.

Infill: Square aluminum balusters.

Drink Rail Adapter

This adapter kit allows you to attach a deck board of your choice to the top rail to create a functional drink rail.

Length: 6 ft.

Flat Top Post Cap

Needed for non-kit posts.

Compatible Posts: 2x2, 3x3, and 4x4 Posts.

Also available in [Ball Top](#).

Post Skirt

Needed for non-kit posts.

Compatible Posts: 2x2, 3x3, and 4x4 Posts.

Top Rail End Plugs

When ending your level or stair rail with a crossover post, these end plugs create a finished look and prevent pests from getting into the railing.

Colors: Black Fine Texture, Bronze Fine Texture, and White Fine Texture.

Lighting *(click images to view product online)*

Magna Star Ornamental Low Voltage Post Cap Light

Finishes: Black Fine Texture, Bronze Fine Texture, and White Fine Texture.

Styles: Halo, Downward, and Combination.

Sizes: 2 in, 2-1/2 in, and 4 in.

Magna Star Titan Post Cap Light

Finishes: White Fine Texture.

Sizes: 4-1/16 in.

Color Temperature: Warm white.

Magna Star Ornamental LED Side Light

Finishes: Black Fine Texture, Bronze Fine Texture, and White Fine Texture.

Magna Star Tear Drop LED Side Light for Westbury Aluminum Railing

Finishes: Black Fine Texture, Bronze Fine Texture, and White Fine Texture.

Additional Brackets (click images to view product online)

Standard Brackets

Only needed when cutting railing into two sections.

Type: Standard/Wall Mounts, Angle Mounts, Stair Swivel Mounts, Stair Double Swivel Mounts, and Fixed Stair Mounts.

Crossover Bracket

Converts a traditional post-to-post design to an over-the post design. Also can be used to add a drink rail.

Compatible Posts: 2x2.

Type: Line or Corner.

Stair Crossover Bracket

Create a continuous top rail connection between two sections of stair rails.

Compatible Posts: 2x2.

Crossover Sleeve Bracket

Use this bracket when cutting stair rail sections down to hide imperfect cuts.

Compatible Posts: 2x2.

ADA Handrail (click images to view product online)

Aluminum Handrail

ADA Compliant continuous handrail adds protection and helps your deck to meet building codes.

Length: 8 ft.

[Internal Handrail End Caps](#) available for handrails that don't return to a wall or post.

Wall Mount Handrail Support

Mounts the Westbury Aluminum Handrail to a wall or post.

Also available in [extended](#), [corner mount](#), and [wall return](#) options.

Internal Handrail Connector

Joins handrail sections or elbows from the inside, and the included ring collar covers the splice for a smooth link.

Also Available as an [adjustable elbow](#) option.

90 Degree Elbow Handrail Return

This elbow returns allow your handrail to turn corners, creating a continuous grip-able surface around the inside or outside of a 2", 3", or 4" post.

180 Degree Elbow Handrail Return

Use on the end of a handrail run for strength and stability. It protrudes past the post then angles back after turning 180 degrees for a smooth connection.
